Creating the Alltech ONE Virtual Experience required quite the crew, and a few video calls to say the least! Thanks to Microsoft Teams for keeping the team connected over the last few months while we've been #SafeAtHome #ONEbigidea

Moving to remote work

Christian Rast • 3rd+
Global technology leader driving the digital transformation for KPMG and its clients
2w •

KPMG is a leader in #remoteworking and #collaboration. Thanks to our alliance with Microsoft, we fast-tracked #MicrosoftTeams to keep our more than 200,000 people around the world connected and to ensure our clients continue to receive seamless service. It was a great pleasure to discuss with my colleague Jens Rassloff and Microsoft's Jeff Teper and Ulrich Homann how #technology powers our new #virtual reality and what's next!

Michael Dell @MichaelDell · Mar 31

A decade ago @DellTech embraced a flexible work culture including work from home. We have 100,000+ people using @MicrosoftTeams and our @DellEMCServices team has some collaboration tips to share:

What we've learned about remote work

Share work from home guidance

Manage back-to-back meetings

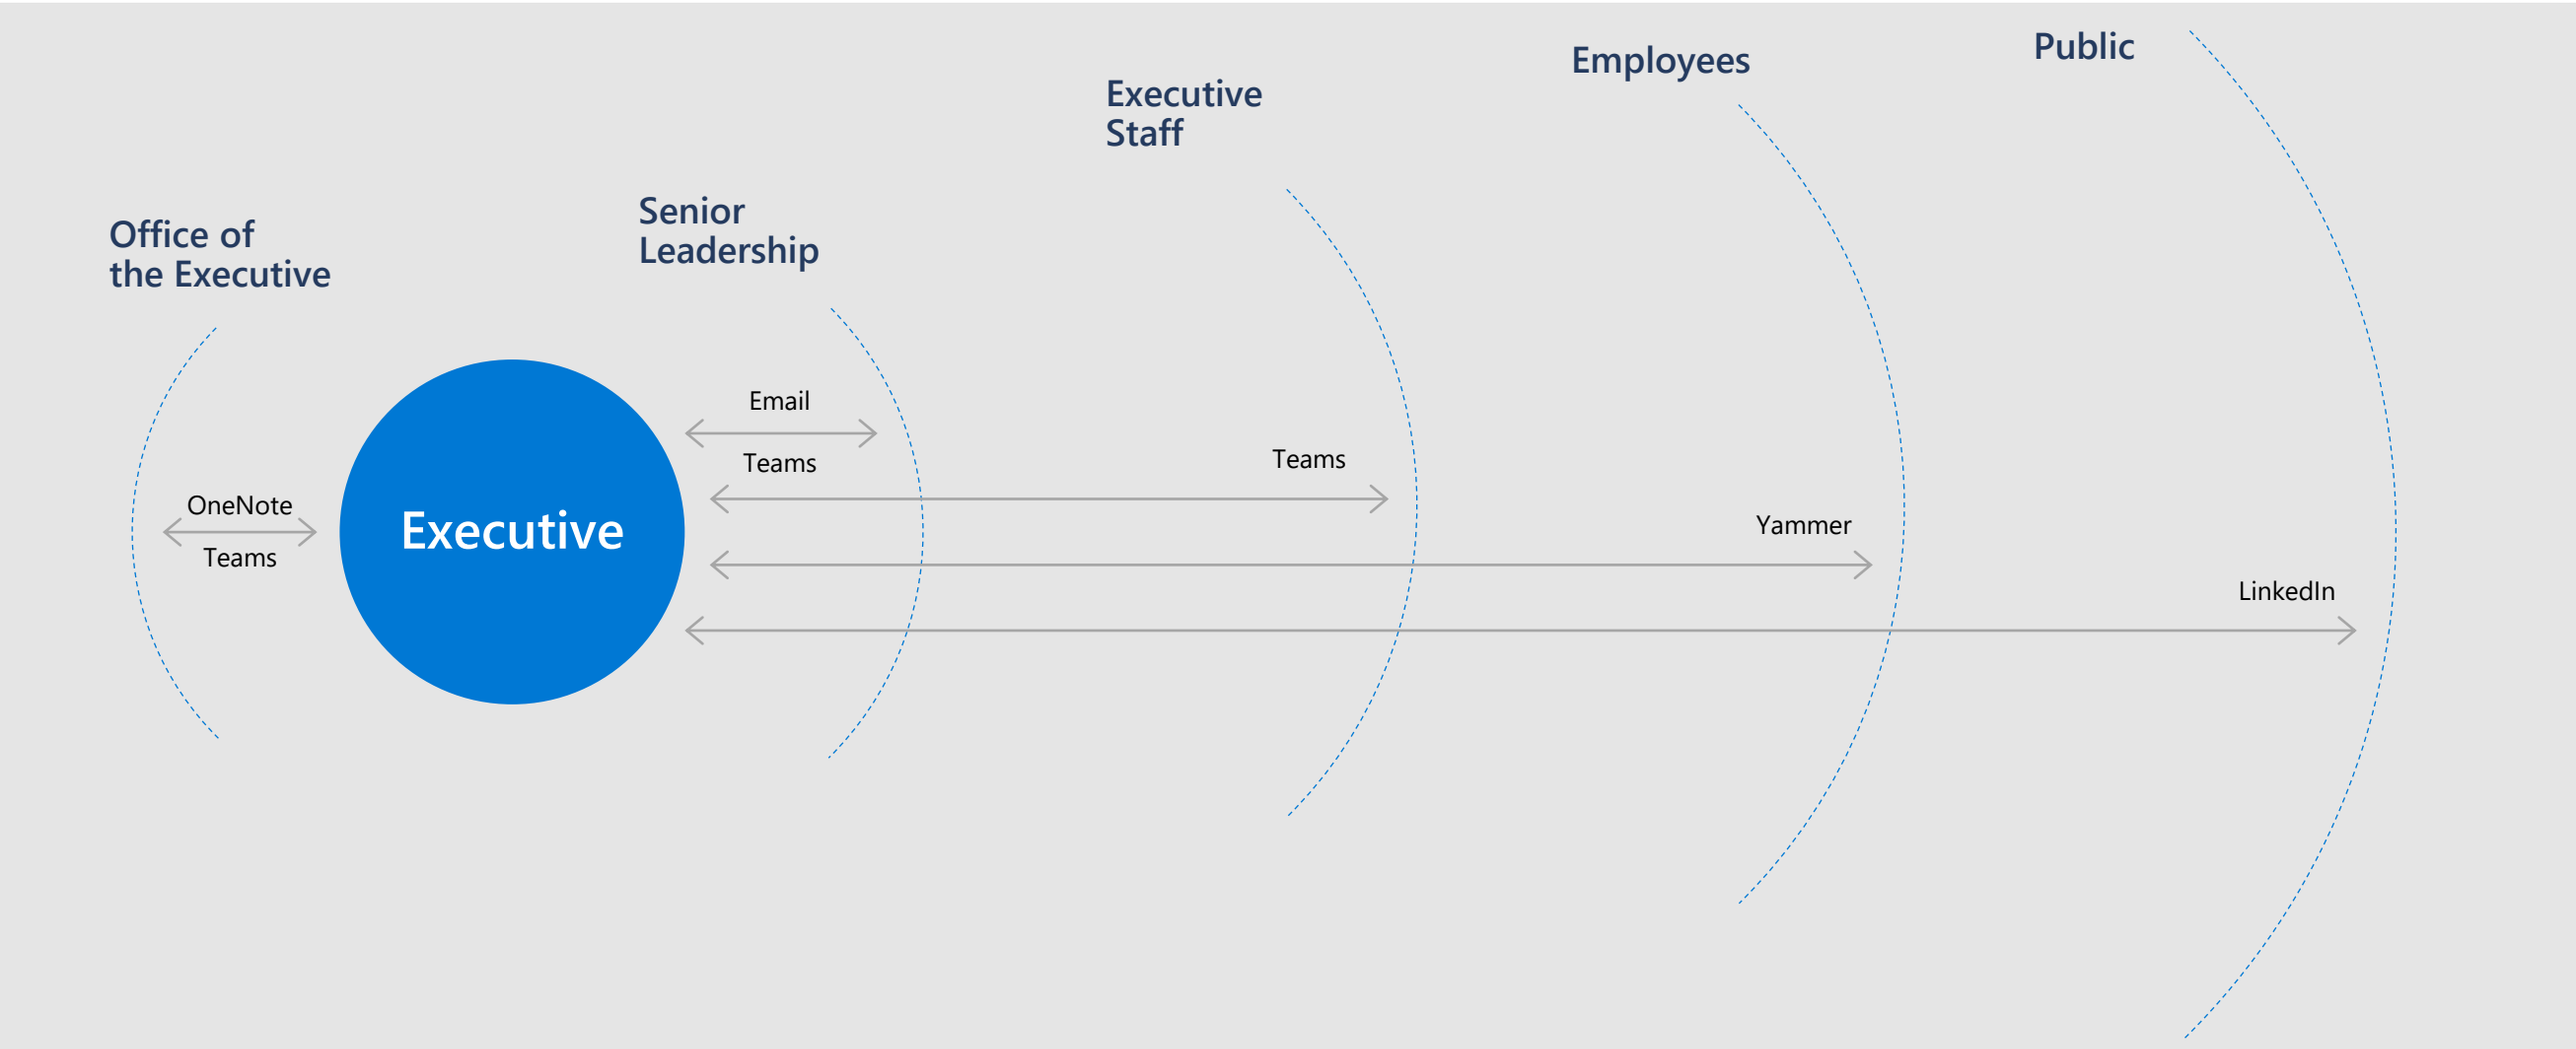
Create space for people to disconnect

Continue driving team culture

Practice key management skills

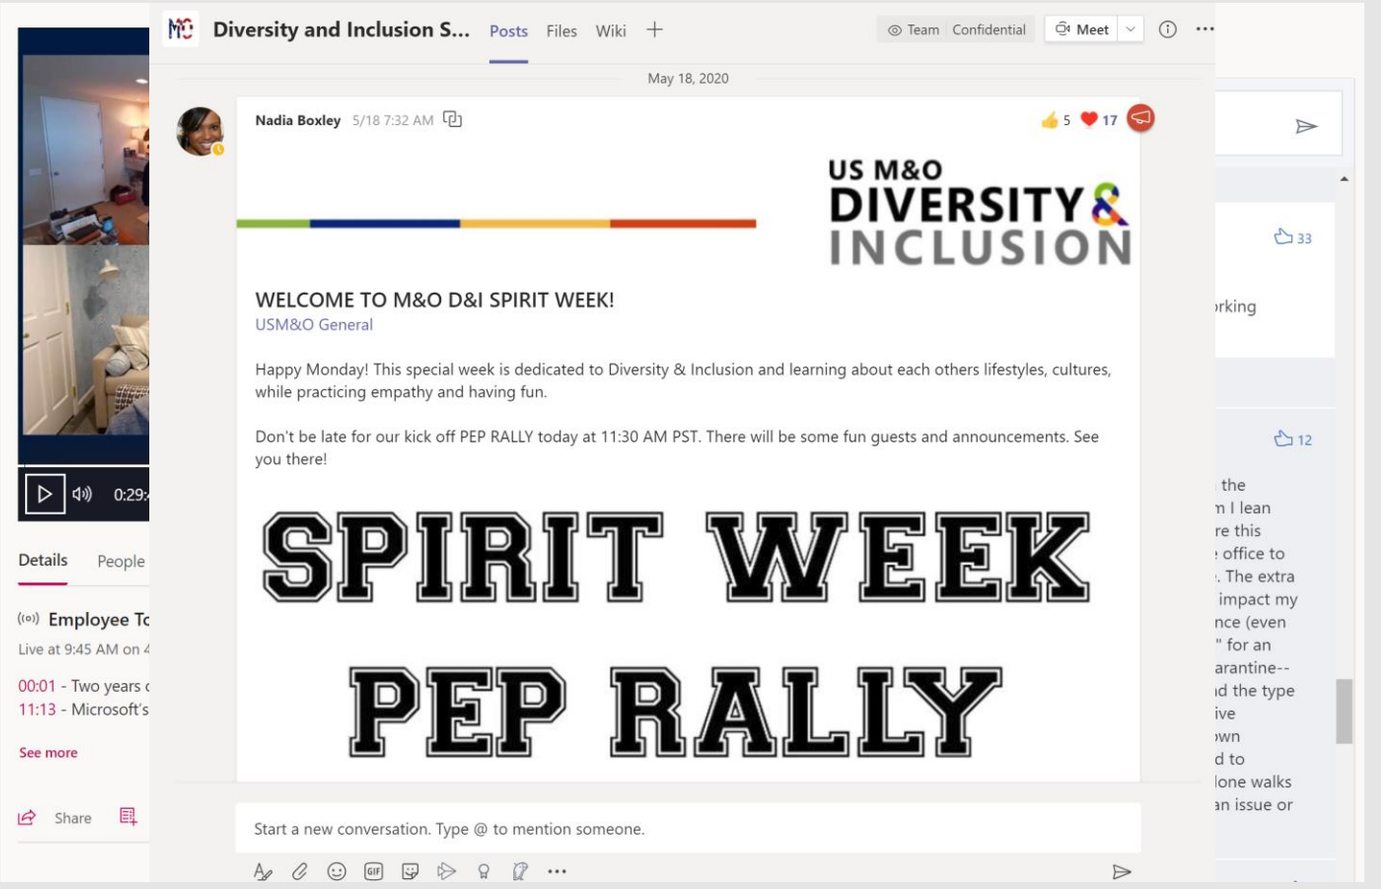
Have fun!

Communications



Staying connected at Microsoft

Ongoing dialog with employees



Success factors

Based on engagements with thousands of customers, we have identified the four Success Factors for driving end user adoption

Learn and reinforce

Stakeholders

- Recruit executive sponsors
- Empower champions

Scenarios

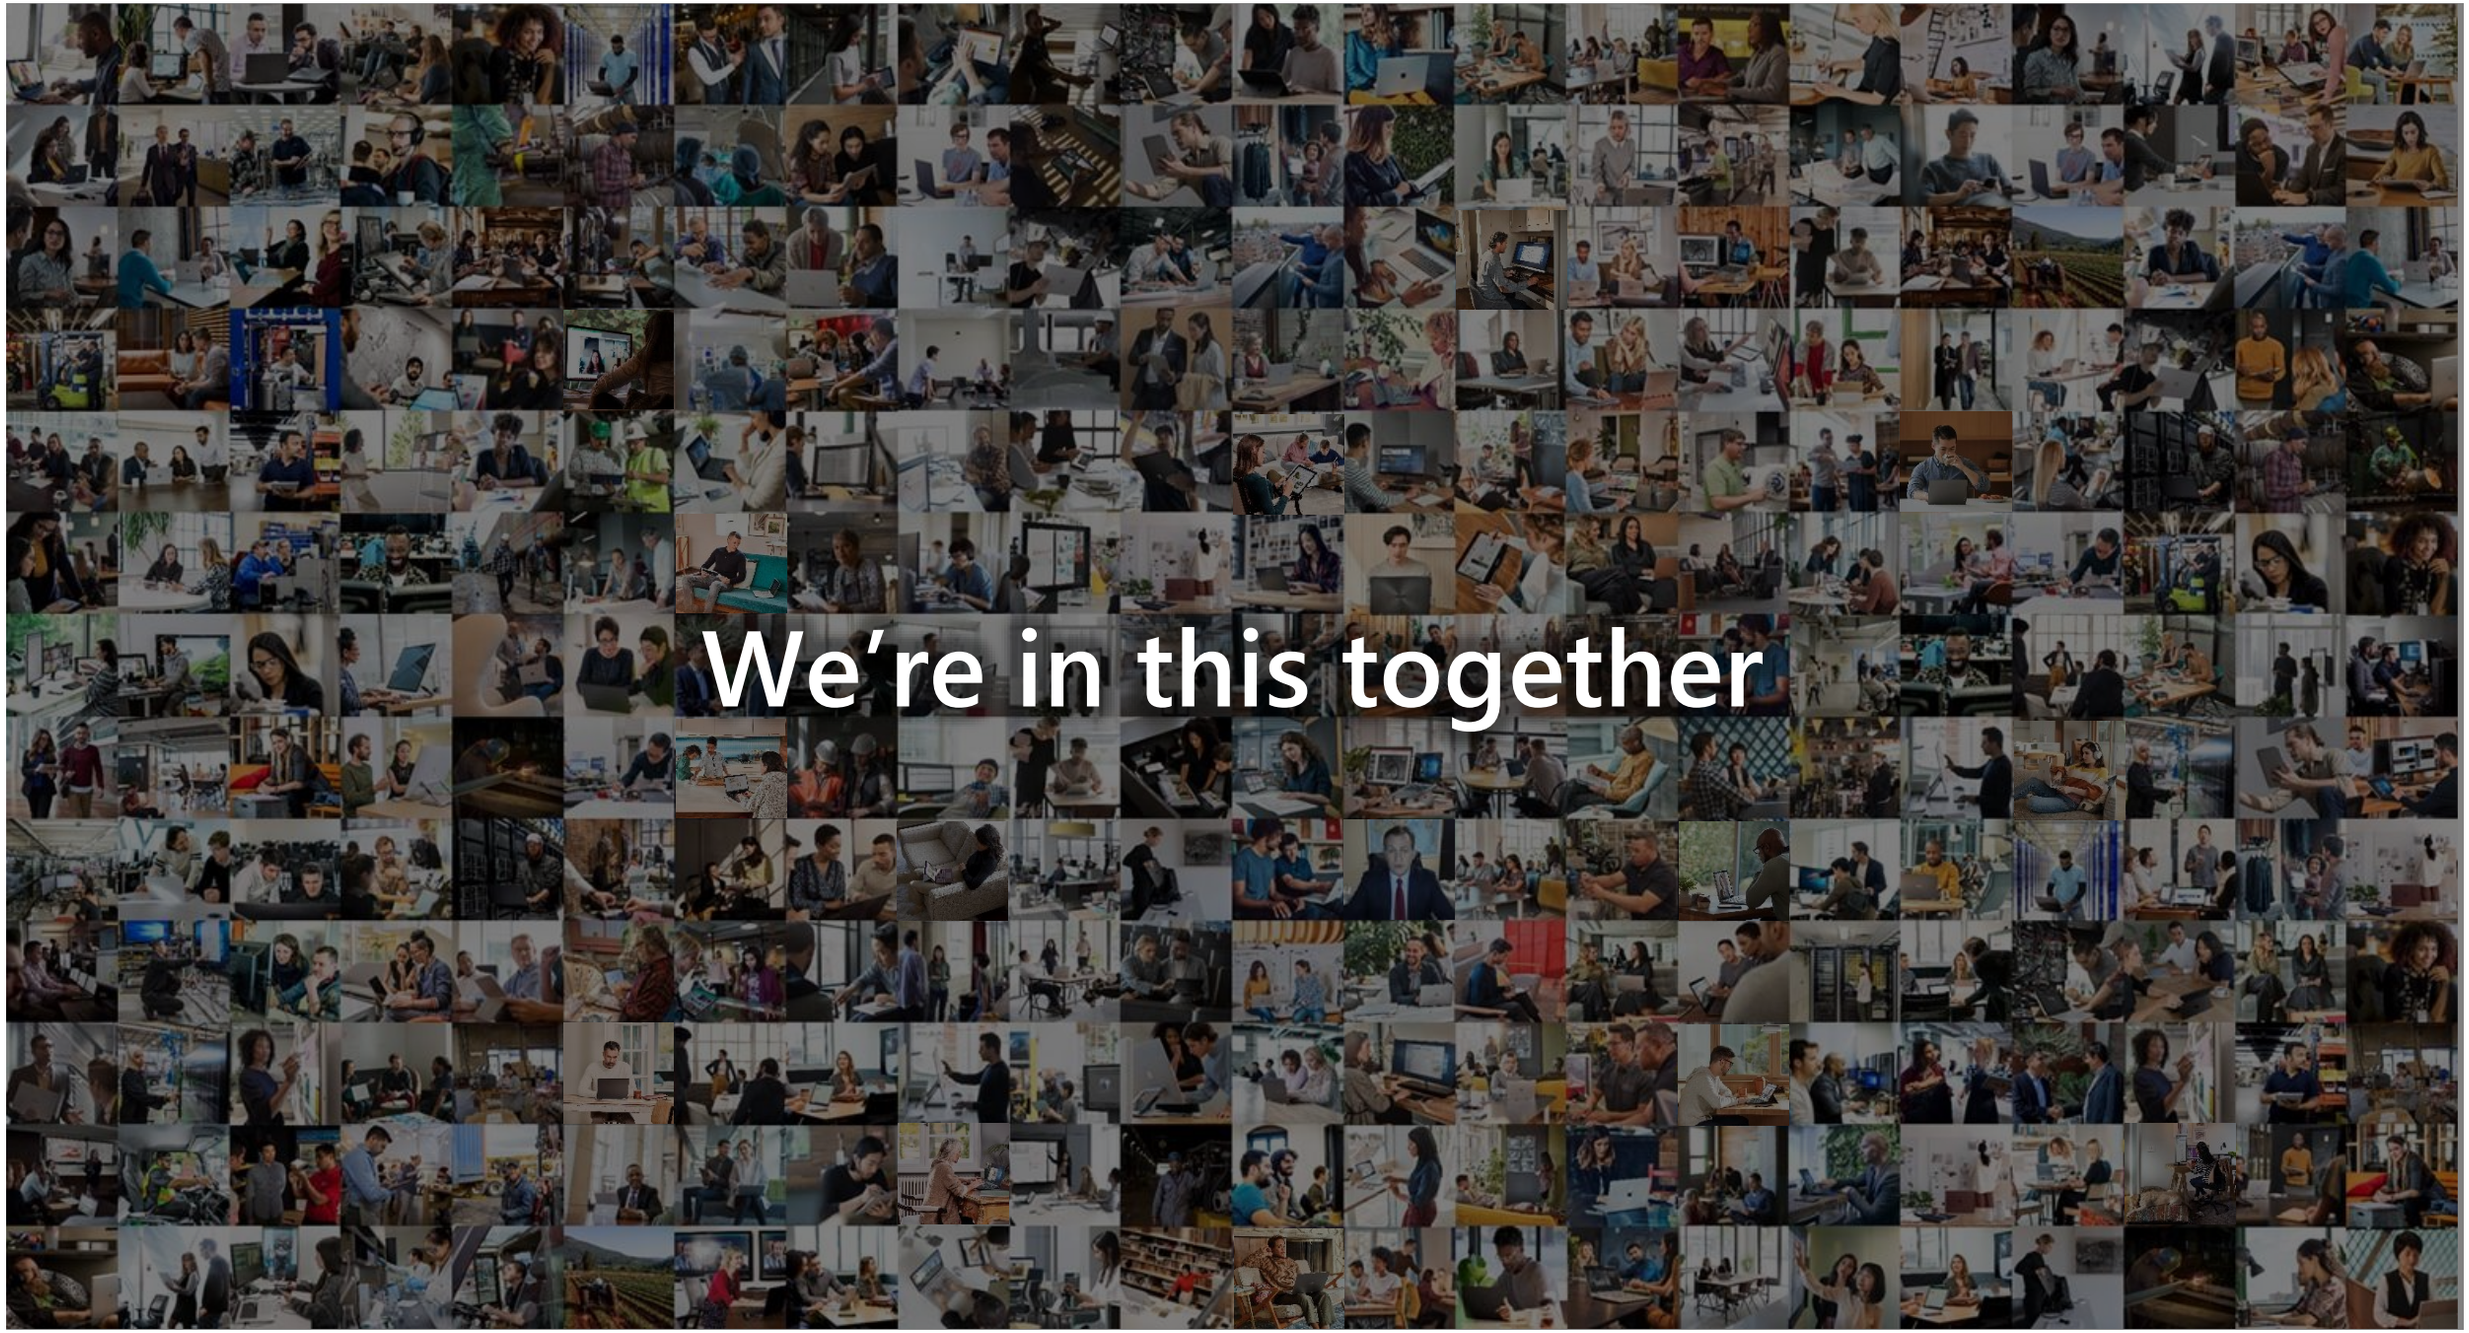
- Prioritize your scenarios
- Define success criteria

Awareness

- Implement comms campaign
- Execute launch events

Training

- Train end users
- Ready help desk



We’re in this together
