Highly-qualified,
English-speaking talent

Working full-time in
your time zone

Most roles start at
\$3000 USD / month

Why Choose AvePoint Talent Services?

IT services providers today face complex and ever-evolving challenges. Rapid advancements in technology, growing cybersecurity threats, and evolving customer needs demands specialized expertise that many teams struggle to find.

Tight project deadlines, budget constraints, and the search for highly skilled professionals can limit growth, leading to delayed projects, security vulnerabilities, or missed growth opportunities. Without the right talent in place, businesses risk falling behind in a competitive landscape. “The top three challenges for MSPs are talent acquisition and retention, evolving cybersecurity threats, and market competition.” — Canalsys

At AvePoint, we want to help our partners increase revenues and scale operations. Whether you’re undertaking a cloud migration, offering 24x7 helpdesk, or scaling your managed services, we deliver the talent needed to succeed. Unlike traditional staffing firms, AvePoint embeds talent into your business with deep industry ecosystem knowledge, seamless onboarding, and a commitment to long-term success.

Our global team combines deep industry expertise ensuring that every candidate is thoroughly vetted and equipped to meet your specific requirements. By partnering with us, you gain access to cost-effective professionals who can grow your business, keep your projects on track, and your organization ahead of the curve.
