

AvePoint Sub-Processor List as of December 2023

This Sub-processor list shall be supplemental to the AvePoint Data Processing Addendum (DPA). AvePoint engages the following Sub-processors (all of them direct or indirect subsidiaries of AvePoint, Inc.) for these purposes:

- a) Cloud Ops: AvePoint's Cloud Operations team operates and maintains the AvePoint Online Services (AOS). The Cloud Operations team is distributed over several countries to ensure proper monitoring of AOS availability around the clock.
- b) Support: AvePoint provides 24/7 product support under a follow-the-sun model. AvePoint offices in the different time zones take over support responsibility during their respective office hours.
- c) SMEs: AvePoint is set up as a modern matrix organization: Subject matter experts (SMEs) are employed by a specific affiliate but may provide services for the whole AvePoint group. An AvePoint SME from, e.g., the UK might be best suited to respond to a customer-specific question or request, even if the contractual relationship between the customer and AvePoint is not in the UK.

Name	Address	Processing Purpose		
		Cloud Ops	Support	SMEs

In addition, AvePoint uses Microsoft Corporation, registered at One Microsoft Way, Redmond, Washington, 98052-6399, USA (including its Affiliates) as a technical infrastructure provider: Microsoft operates the Azure infrastructure leveraged by AvePoint for the provision of the AvePoint Online Services. Further, Microsoft operates the M365 environment that is used by AvePoint for various purposes (e.g., usage of the CRM system Dynamics).

Further technical providers may be included as Sub-processors based on respective customer instructions (e.g. if a customer has an AOS solution set up in a data center operated by a different provider).
