AvePoint | THE AI TRUST COMPANY

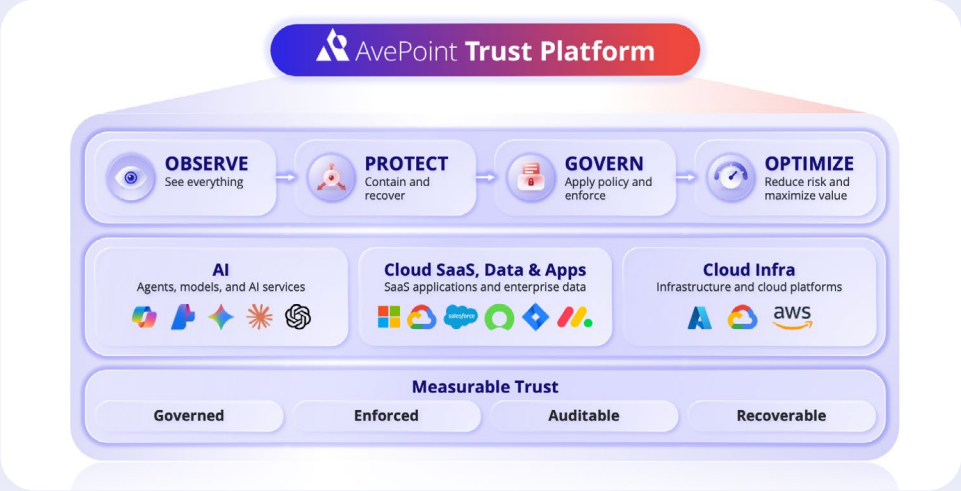

AvePoint Trust Platform

# One Platform. Every Layer Covered.

Discover shadow AI, enforce policies, manage risk, and achieve measurable trust across agents, applications, models, and vendors.

## PROVE TRUST ACROSS AI, DATA, AND CLOUDS

AI is only as trustworthy as the data, apps, and infrastructure it runs on. The AvePoint Trust Platform helps you see what you have, protect it, control what it can reach, and show what it is worth. Governance, security and recovery work the same way wherever your AI operates.

## Trust is an outcome – not a belief

***82.7%*** *of leaders are confident they can prevent unauthorized data access.*

***89.5%*** *of organizations experienced an AI-related security incident in the last year.*

AvePoint Trust Platform

## OBSERVE

Identify shadow AI with one real-time, cross-platform inventory of the full AI estate: agents, models, skills, and more.

## PROTECT

Resilience built for AI actors that move quickly and constantly. Restore data, apps, agents, and more to a known-good point quickly.

## GOVERN

Apply policies across the AI estate to enforce lifecycle, retention and residency. Ownership, attestation, receritification, and retirement for AI assets.

## OPTIMIZE

Make every token count with end user coaching and organization-wide visibility into consumption and budget management.

### AI-Ready Data

Find and fix oversharing, label sensitive content and retire what is stale, so AI works from data you can trust.

### Agent Lifecycle Governance

Discover agents and give each one an owner, a scope and a review date, across the platforms they run on.

### Make Every Token Count

Ensure effective and efficient prompts with end-user coaching and democratize token budgeting across the to align consumption with key initiatives.

### AI Resilience is the Safety Net

Immutable backup and point-in-time restore of the data and the agents the business depends on.
