Uncover how AvePoint transformed learning systems across various industries

CONTINUING EDUCATION & TRAINING (CET) PROVIDER

A leading Continuing Education and Training provider in Singapore focuses on transforming the lifelong employability of working people in Singapore.

Challenges

- Limited visibility into learner progress and performance tracking
- Lack in ease of access to relevant courses aligned with their career goals
- Inability to support an expanded course, offering and meeting both learner and enterprise needs

AvePoint's Solution

- ✓ Rolled out a unified Training & Learning Experience Platform
- ✓ Seamlessly integrated funding platforms, digital workbenches, and certification systems into the platform
- ✓ Provided mobile and web access, allowing learners to explore courses with personalised recommendations based on their career goals and skills gaps

AVIATION TRAINING ACADEMY

The training academy offers a comprehensive range of internationally recognised training programmes, professional diplomas and graduate programmes.

Challenges

- Insufficient capability to enhance features and functionalities to meet evolving business needs
- Poor integration with finance systems for billing and fee collection
- Limited automation in work processes resulting in frequent manual intervention

AvePoint's Solution

- ✓ Delivered a fully integrated end-to-end admissions lifecycle
- ✓ Integrated Workday and Singpass MyInfo into its website for streamlined operations
- ✓ Powered by advanced automation to boost productivity and deliver a smooth user experience

SINGAPORE'S GOVERNMENT AGENCY ACADEMY

A government agency academy provides professional development opportunities across various functional areas, equipping officers with the skills needed for their current and future roles within the agency.

Challenges

- Poor system integration causing manual work
- High administrative workload
- Limited personalised learning and collaboration features

AvePoint's Solution

- ✓ Deployed an integrated learning management system (LMS) and training management system (TMS)
- ✓ Managed the end-to-end learner journey, covering all stages of the training process
- ✓ Supported staff development across various functional areas and learning needs
