

Get full credit and protect your Google Classroom data

Google Classroom Backup & Recovery

Complete Solution for Education

One solution to protect Google Classroom in addition to Gmail, Calendars, Contacts, Documents and Drives

Recover in Minutes, Not Days

Without having to pick up the phone, easily restore your Google Classroom content in minutes. Granularly restore a single document or an entire classroom with a few clicks

No Recycle Bin? No Problem

Deleted your classroom data? With backups up to four times a day, ransomware protection and more you'll never worry about having a reliable backup when trouble strikes

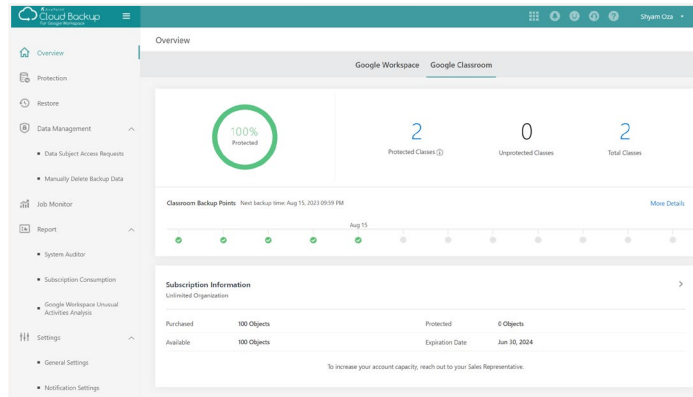

Simple Classroom Protection

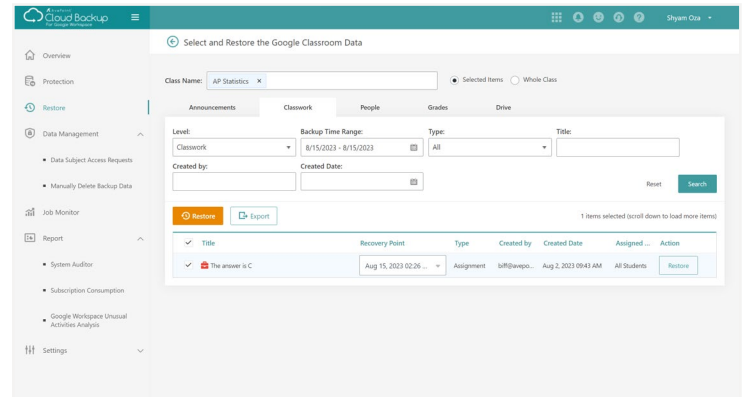

Protect Grades, Assignments, Documents, Users and Announcements all with a simple, predictable per classroom price model

The most complete google workspace for education solution

AvePoint Cloud Backup is the industry's most complete cloud-to-cloud backup solution for Google Workspace. With unlimited, automated backups, and secure storage in AvePoint's storage or your own cloud, you just decide how much to recover, and when. On-demand and granular, item-level restore provides anytime access for your most important emails, files, classroom data and other content in Google Workspace for Education. Save time and reunite your users with their lost data via self-service, automatic restore with [ReCenter](#).

Cloud Backup for Google Classroom Dashboard

Cloud Backup for Google Classroom Restore

COMPREHENSIVE BACKUP

- Near-zero configuration for daily backup plans and target protection is up to 4 backups per day (or every 6 hours).
- Protection for Google Workspace content in Gmail, Drives, Calendars, Contacts, Shared Drives and Google Classroom data.
- Built-in business rules and filters enable you to quickly choose which content you want to backup.
- Store backups in our scalable Azure Storage with minimal configuration, or in your cloud or data center of choice with support for Microsoft Azure, Amazon S3, Dropbox, and any data destination accessible via Secure File Transfer Protocol (SFTP), File Transfer Protocol (FTP) and any S3 compatible storage.
- Further safeguard your data from cyberattacks or leakage by bringing your own Microsoft Azure Key Vault Encryption Key to meet compliance regulations around sensitive data.
- Manage protection with simple per user and per classroom licensing.
- Audit solution activity and always understand the status of your backups.
- Digest license and data consumption information in an instant.
- Always understand the status of your backup jobs, down to every object and folder protected.
- Find, select and delete users' with Drive, Gmail, Contact, Calendar backup data to meet "Right-to-be-Forgotten" rule under the EU GDPR Article 17.

GRANULAR RESTORE

- On-demand, granular recovery of Google Workspace for Education content including Gmail, Drives, Calendars, Contacts, Shared Drives and Google Classroom data - to the online or offline storage of your choice while maintaining all metadata and permissions.
- Granular restore doesn't just mean an individual document or version—perform security roll-backs to undo unintended permissions changes.
- Export and restore content outside of Google Workspace, including the ability to restore mail items to a PST, documents to a file share or device.
- Recover quickly with time- or object-based restores by locating business-critical files or emails with full-text search capability for rapid discovery.
- Monitor daily changes, detect unusual activity as well as potential ransomware attack events at an early stage, investigate the issue preemptively, and quickly restore from a good backup point with ease.
- ReCenter is a self-service, end user portal where users can easily locate and restore their lost content in personal Drives, Calendars, Contacts, and Mail without burdening IT.
