

Resilient Collaboration in a Modern Workplace

Harness the power of enterprise-grade software and comprehensive coverage with AvePoint. Reap the benefits of having safe solutions and satisfied customers. Offer higher-margin managed services, producing recurring revenue opportunities.

Simplify the Complex. Secure Solutions Under One Roof.

Access Monitoring and Control

Secure and monitor sensitive business information in Microsoft 365, so customer business data isn't exposed.

Backup and Disaster Recovery

Comprehensive coverage to ensure protection against data loss or ransomware attacks for Microsoft 365, Dynamics 365, Salesforce and Google Workspace.

Provisioning and Management

Efficiently provision and manage Microsoft 365 environments. Automate tasks and keep collaboration tidy, well-managed and secure.

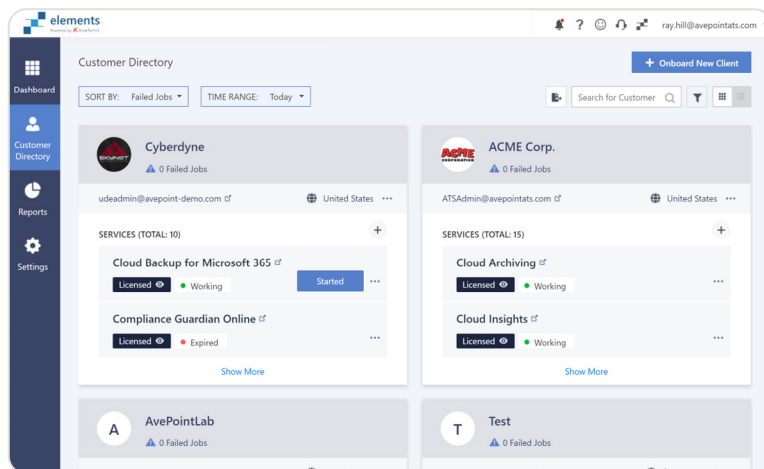

Secure Migration

Fast, secure migration of content from legacy dark and unsecure collaboration systems to a secured collaboration cloud in Microsoft 365.

Product bundles and services also available

Partner-Centric Multi-Tenant Management Portal

Easily provision, manage, and analyze your customer licenses and usage all in one place, to scale without losing visibility into support tickets and ongoing activity. AvePoint's dedicated, partner-centric portal is built on AvePoint Online Services, a 100% Microsoft Azure-hosted Software-as-a-Service (SaaS) platform that helps companies take advantage of Office 365's benefits without compromising control.

Today, AvePoint is the only ISV offering an all-in-one approach to providing secure collaboration that includes security, backup, management, and migration to Microsoft 365.

20+ Years in Business

Multiple Partner Awards

In-house Microsoft RD & MVP Expertise

~2000 Employees in ~30 Global Offices

Our Commitment to Cloud Security

Our company processes, services, and software have obtained industry-leading security, privacy and accessibility certifications. [Read about our commitment to security.](#)

What Our Partners Are Saying:

“ We examined all the possibilities, but they just didn’t feel like a finished product. AvePoint was the first to offer a solution with Teams backup. You are fully ahead of other companies.
