

Global Object Pricing WITH FLY

Streamlined Pricing for Seamless Migrations: A unified pricing model supporting all your migration requirements, whether it's On-premise to Online, or Cloud to Cloud.

THE CHALLENGE

Complicated pricing models can lead to delayed migration projects, unclear budgeting, and paralysis during procurement. Data caps on mailboxes, Teams and SharePoint, changes in scope and other limitations can suddenly bring migration projects to a halt or balloon budgets.

THE SOLUTION

Introducing simple Global Object Pricing for AvePoint Fly. Whether you're migrating mailboxes, Teams, Google Workspace Drives or SharePoint Online sites there is one universal price regardless of the object.

Explore Limitless Possibilities: Uncover with Free Discovery and Zero Data Caps on ANY Object

HOW IT WORKS

One Fly Global Object license can migrate any one object regardless of its size!

Globally Supported Objects

Fly / AvePoint SaaS-Hosted
