

POWER PLATFORM RISK ASSESSMENT

Get a handle on your Power Platform governance. Locate your management and governance blind spots and turn them into strengths with our risk assessment.

Whether your organization is building its first app or already has thousands of PowerBI workspaces, AvePoint can help you measure risk and get you on the path to creating a management and governance framework based on your data and organizational security and compliance.

Our complimentary risk assessment includes:

Discovery & Assessment

- Deploy Entrust for Power Platform Assessment
- Discover environments, apps, flows, and PowerBI reports
- An overview of current premium connectors
- Assess usage trends and current ownership for environments, apps, flows, and PowerBI reports
- Discover Data Loss Prevention (DLP) policies in place for Power Platform

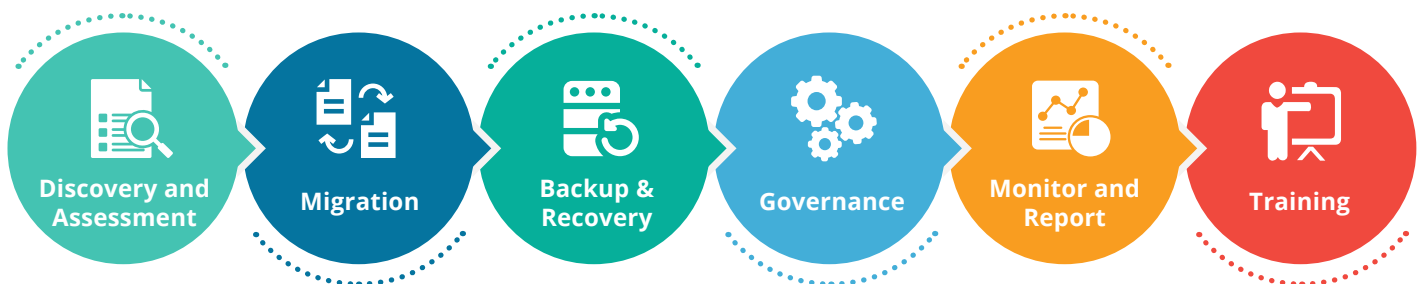

Analysis and Recommendations

- Analyse collected data for governance, cost and adoption risk
- Evaluate environments, apps, flows, and PowerBI reports developed with no Data Loss Prevention (DLP) policies in place
- Identify no established ownership for high-usage apps, flows, and environments
- Identify current premium connectors that could lead to licensing cost overruns
- Reveal usage trends, identifying low-scoring areas that may need additional training and support
