

AvePoint and e-office Partner to Deliver Comprehensive Microsoft SharePoint Solutions

New agreement widens the delivery of AvePoint's SharePoint infrastructure management solutions and e-office's SharePoint consulting services throughout Western Europe

London, United Kingdom — May 25, 2010 — AvePoint, the leading provider of infrastructure management software solutions for Microsoft SharePoint, today announced a partnership agreement with e-office, Holland's premiere IT solutions and consultancy services provider. As a result of the partnership, e-office is now an authorised reseller of AvePoint technologies, and both companies will collaborate extensively to integrate their complementary product offerings and services for customers throughout Western Europe.

"We are very excited to partner with e-office", said Ron Miles, AvePoint's Director of EMEA Sales. "e-office is a top-flight consultancy with a proven track record of delivering successful SharePoint deployments for its customers. Organisations are increasingly utilising SharePoint throughout the Netherlands as their mission-critical information management platform, and have a vital need for the infrastructure management solutions AvePoint provides. As a result of this partnership, they now have a dedicated partner with a comprehensive understanding of SharePoint best practices and AvePoint's solutions."

AvePoint's award-winning DocAve Software Platform is a comprehensive infrastructure management and protection solution for Microsoft SharePoint Products and Technologies. With a unified, browser-based user interface and a fully distributed architecture, DocAve offers more than 25 independently deployable modules for SharePoint data protection, administration, compliance, migration, reporting and storage optimisation.

e-office, founded in 1991 with headquarters in Houten, Netherlands, specialises in creating an optimal environment for digital professionals. The consultancy implements the latest IBM, Microsoft, Google and mobile technologies to help support the organizational and behavioral change needed to improve work processes. e-office advises organisations on how they can use technology to improve cooperation and work more efficiently, regardless of the time or place.

"More and more companies see the potential of SharePoint as an information management platform", said Johan Eweg, Partner Manager at e-office. "The functionality in SharePoint 2010 compared with previous versions is much more social and more extended, so that professionals can optimise collaboration in projects and documents. As a SharePoint expert, we are always looking for the right solutions that add value to our services. With AvePoint's solutions, we are able to support the customer's migration to SharePoint in a quick and easy way."
